Controls did not work with Vive.. Really good zombie shooter with an interesting twist. The drinking is very well implemented. I never felt sick or uncomfortable while being (virtually) drunk. The first level is by far my favourite. To me it has the best weapons and ambience. Also zombies are coming from a 90u00b0 radius which is nice. I don't like being attacked from all sides at once, mostly because of the Vive's cable and limited field of view. The gunplay feels great, especially with the pistol and shotgun, while the SMGs are feeling very weak (except headshots). Also the revolver could have more power. Reloading is very fast by simply lifting the weapon over your shoulder. + Drinking works surprisingly well + No motion sickness + Weapon handling feels great + Nice bartender and creepy zombies + Nice graphics + Responsive developer - SMG and revolver are feeling too weak - Repetitive after a while (still fun though) Played on HTC Vive. P.S.: While starting up the game, be careful when turning around during the loading screen.. Really good zombie shooter with an interesting twist. The drinking is very well implemented. P.S.: While starting up the game, be careful when turning around during the loading screen.. It's fun. for one game. The reason? My first ever turn went on for half an hour and seemed like it would never end.. "Drunk or dead" is a very funny wave-shooter! If you like the following things, this game might be your idea of fun: 1) drinking and shooting 2) zombies 3) women This game is basically a wave-shooter with a lot of cool ideas and funny twists.. It's fun and cheap, but a bit wonky. The shooting feels good, but grabbing the drinks is sometimes an issue as they either spill immediately or don't count when you bring them to your face. The drinks also need to be a more to your side as after the first couple they are too far behind you to be comfortable. But honestly the biggest problem is that I want to be able to switch sides so I can shoot with my right and drink with my left. But all that said, it's a fun concept. Having to keep yourself at a moderate level of drunk is a nice change of pace from just constantly shooting and forces you to manage 2 things at once. For the price, it's a fun game. Update: I came back for another round and ended up beating the first level, which I hadn't even realized was a thing. I enjoyed the first level, but the second one is a blast. It's still a small game, but it's priced well for the experience and it's worth having in VR library.
